

100% WARRANTY

Ryco warrants each compatible cartridge to be free from defect in both material and workmanship for the life of the product. We offer a full, two-year warranty beginning with the date of manufacture. Our compatible laser toner cartridges are produced under the most exacting quality control standards possible, guaranteeing performance that meets or exceeds that of the original manufacturer for print quality density and yield.

All Ryco products with a production date code label of March 1st, 2007 or later have a full, two-year warranty from beginning of the date of manufacture. We further warrant that our products will not cause damage, deterioration or abnormal wear in any compatible machine for which it was originally designed.

Ryco will reimburse the customer for a complete repair of damaged machines if the Ryco products were deemed to cause the machine repair. In addition, all claims must be accompanied with an invoice from the authorized service company that performed the repairs. Return of defective products is required and all Ryco products must be returned in original packaging with all box and cartridge labeling intact.

Ryco's liability shall be limited to repair, replacement or reimbursement as stated above. This warranty is exclusive and in lieu of any and all other warranties, expressed or implied.
